The attached "Soviet Scenario for Post-Cuban Negotiations with the US" has been prepared for background use in connection with the development of US plans for possible post-Cuba negotiations. It was drafted on the basis of judgments developed by a group consisting of officers from S/P, EUR, G/PM, Defense and CIA. Work on the substance of possible negotiating positions is going forward, as indicated in paragraph h., of Report Number Five of the Planning Sub-Committee.

For convenience in drafting, this paper was written from the Soviet point of view. No attempt, however, was made to put it into Sovietese or to develop Kremlin-type argumentation.
